Wild Red Berry Defeats La Crosse in Grudge Fight

Rain last night caused the wrestling program to be transferred from the outdoor arena to the Shovel gymnasium ring but it didn't dampen the spirits of a capacity crowd which roared its approval of Wild Red Berry's two-fall win over the rough and tough Gil LaCrosse of Boston. The untamed Kansan used but nine minutes to score the two decisive falls in one of the toughest grudge battles seen here in a long time.

Andy Tremaine of Phoenix, Ariz., the hard scrapping youngster, fell before the veteran Martino Angelo of Buffalo in the second 30 minute featured bout. [illegible] from the moment he inaugurated his rough tactics at the start of the scrap, Angelo scored the opening fall, lost the second and came back to win the decisive round.

Jack Domar of Toledo [illegible] his way to a 12 minute victory over James King of Detroit in the 20-minute preliminary match.

Berry ended the first round of his slugfest with LaCrosse in [illegible] minutes when he clamped on a full Nelson, spun his opponent into dizziness and used a body press to pin his shoulders.

The carrot topped hefty came out of a tough spot to get the full Nelson. LaCrosse was in the midst of a series of body spills when Berry grasped the opportunity he had been sparring for. Coming up from the mat he applied the Nelson and made short work of the first round.

The Kansan returned LaCrosse's display of hair pulling and slugging in the second round. Early in the round Berry applied an Indian deathlock but LaCrosse freed himself and punched the red head from the ring. Berry's attempts to return to the mat were unsuccessful until he stood on the outside of the ropes and met the Bostonian's onrush with a punt to the jaw. In the following exchange of blows both combatants went through the ropes and continued the scrap at the ringside. Separated by the law they returned and LaCrosse began a series of rope catapults which ended in his own defeat.

Berry was spilled by two of the charges but sidestepped the third and LaCrosse dove into the ropes on the opposite side of the ring. Berry stepped in with several rights to the jaw, a knee jolt and scored the decisive fall at the end of five minutes with a body press.

Much to the crowd's dislike Martino Angelo, the tough Italian who enters the ring minus his shoes, battered the youthful Tremaine into submission. He took the first fall with a painful hammerlock. Applying it on Tremaine's left arm the Italian twisted, pounded and gouged his heel into the muscles of Tremaine's arm to take the first fall in 13 minutes.

Tremaine retaliated in the second melee, handing out a series of rights to the jaw and then catapulted his opponent to the mat and applied a [illegible] which [illegible] the fall in his favor [illegible] five minutes. Tremaine was [illegible] Angelo [illegible] the winning fall [illegible] the final round. Rain halted scheduled softball games in the Sunday school league No. 1 last night but a slight change was recorded in the standings when two teams forfeited to opposing aggregations. Reformed forfeited to the second place Lee Street club. St. Mary forfeited to the Epworth Seniors which by virtue of the forfeit moved from fourth to third position in the standings. Forest Lawn's clash with Trinity Baptist and the Presbyterian Epworth No. 1 game were postponed because of rain.

Tonight's games will feature twilight contests of Sunday school league No. 2 and an All Star flood light game matching Gasco and Moores & Ross. The game under the lights will begin at 8:30 o'clock at Lincoln park while the twilight contests are set for 6:15 o'clock. League No. 2 games tonight are Wesley vs. Calvary at President's field, Christian vs. United Brethren at Garfield park, Salem vs. St. Mary at the Marion Steam Shovel athletic field. Salem, the seventh member of the league, will be idle.

RED BIRDS AGAIN LEAD MID-ATLANTIC

By The Associated Press

COLUMBUS, O., July 28—There were only two games in the Mid-Atlantic league last night but the results changed the standings again and put Huntington on top. The Red Birds, with Mike Marty[illegible], ace southpaw, striking out 12 men, downed Dayton 3 to 1. It was Mike's 15th victory of the season. Portsmouth, looking up from the cellar, knocked Charleston out of first place with an 8-7 victory.

Joe Joyce of Portland, Me., a tall 20-year-old rookie who had spent the 24 hours previous to the game on a train, relieved Snyder in the second and allowed the Senators just two more runs for the night. It was his first professional ball game.

Schoolboy Rowe, who[illegible] had been a standout among the [illegible] Detroit performance, was the main factor in the Tiger triumph, limiting the Yanks to five hits.

Rowe virtually won his own game in the third inning when he drove one of Lefty Gomez's pitches out of the park with Ray Hayworth on base to start a three-run rally. He singled home two more tallies in the seventh when Detroit fell on Walter Brown and Ted Kleinhans for six more tallies after Gomez had gone out for a pinch hitter.

The defeat did little damage to the Yanks' lead as the Indians' game with Washington was rained out while the Browns, led by the aged and ailing Jim Bottomley, knocked off the third place Red Sox 7-5.

Bottomley poked out two doubles and a single to lead the attack while Russ Van Atta's three-hit pitching in the last five frames held the Sox in check.

A terrific slugfest by the Athletics and Brooklyn's third straight victory over the Pirates completed the major league program. Rain and threatening weather wiped out the Cubs-Phillies and Reds-Giants game while the Cardinals and Bees had an open date.

The Mackmen opened fire on Vernon Kennedy, who had won nine straight games for the White Sox, and before they finished they had smashed out 25 hits for a 15-8 victory.

Kennedy left the scene in the sixth with the count 8-4 against him and escaped a loss as the pale hose, no mean sluggers themselves, with 15 blows tied the score in the eighth. Red Evans and Sugar Cain were the victims of Philadelphia's final seven run blast.

Brooklyn beat the Pirates 6-3. Fred Frankhouse hurled seven-hit ball while his mates knocked Cy Blanton off the slab in the fifth and touched Waite Hoyt for their final run.

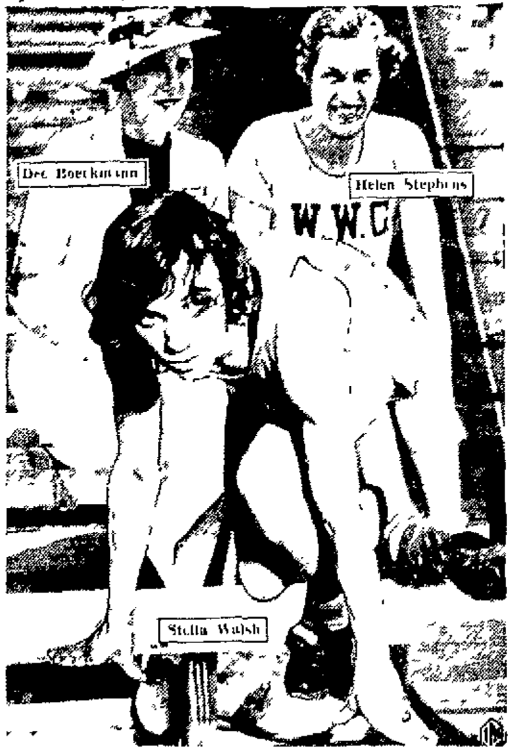
Speed Queens To Meet at Berlin



BY MAURICE MERRYFIELD
International Illustrated News

FULTON, Mo., July 28—"You'll have to show me, I'm from Missouri," may well be the motto of speedy Helen Stephens when she shows her heels to competitors in the women's events at the Berlin Olympic next month.

And the residents of this Missouri city are waiting impatiently for the expected triumph of the "Pride of Fulton" so that they can proudly boast to their neighbors that "the home town girl made good."

It appears likely that this youthful phenomenon will be the sensation of the Olympics. Along with Jesse Owens, the Ohio State flash, she looms as the one most likely of winning or placing in three events.

In the high jump and shot put she ranks by herself. And her time in the 100-meter event compares favorably with the Olympic record.

Miss Stephens' foremost contender among the women speedsters is Stella Walsh, formerly of Cleveland, who will be racing for her native Poland. These two rank as the fastest feminine sprinters in the world and should put on a race which ought to be one of the features of the meet. In past competition each has triumphed over the other and the margin of difference between the two is slight.

It was at the national A. A. U. meet in St. Louis a year ago that the Fulton, Mo., girl electrified the sports world by beating Stella Walsh in the 50-meter event, tieing the existing record. This performance at the expense of a veteran athlete who was thought unbeatable made Helen Stephens a national figure overnight.

Although she has been in active competition for little over a year, Miss Stephens has an unbroken string of victories to her credit. Nor has she yet reached the peak of her form in the opinion of Dee Boeckmann, coach of the United States women's Olympic team, and other trainers.

Moore Discovered Her

Coach Burton Moore of Fulton high school is the person credited with having discovered Helen Stephens. One day during an outdoor gym session of the high school freshman class he was clocking various girls as they ran the 50-yard dash. His amazement can be imagined when he glanced at the watch after one of the trials to find that the gangling, built youngster had negotiated the distance in a time equalling the existing world record.

GOMER JONES PICKED FOR ALL-STAR GAME

O. S. U. Ex-Star To Start Against Lions, Four Other State Stars Picked

By The Associated Press

CHICAGO, July 28—America's football fans—3,410,164 of them—have decided that eight midwesterners and one each from the south, southwest and Pacific coast have earned the first crack at Detroit's professional champion Lions in the third annual All-Star gridiron classic at Soldier Field the night of September 1.

Their choice for a backfield, expressed in the poll conducted by the Chicago Tribune with the cooperation of 192 other newspapers, has All-America Riley Smith of Alabama at quarterback, Jay Berwanger, Chicago's famous All-America star, and Bill Shakespeare of Notre Dame at halfbacks, with Sheldon Beise of Minnesota at fullback.

To operate in front of the four great backs a line consisting of Wayne Millner of Notre Dame and Keith Topping of Stanford, ends; Dick Smith, All-America from Minnesota, and Truman Spain of Southern Methodist, tackles; still another All-America star, Paul Tangora of Northwestern, and Vernon Oech of Minnesota, guards; and Gomer Jones of Ohio State at center, has been elected for duty at the kickoff.

Berwanger, whose exploits earned him the title of "one-man football team," was the biggest vote getter, piling up a 781,573 total. Smith was the choice of 64,692 voters while Shakespeare had the support of 7[illegible]951. Beise's total was 62[illegible]. Jones had [illegible]328[illegible].

Other stars invited to report for the first practice session at Northwestern university Aug. 1 include these from Ohio State: End Trevor Rees, guard Jim Karcher, quarterback Stanley Pincura, halfback Dick Heekin.

Milwaukee Sinks Colonels, Kansas City Defeats Indians 2 to 1

By The Associated Press

CHICAGO, July 28—With the campaign making the stretch turn, the American association appears set for [illegible] a western division playoff.

The first four places, the four spots qualifying for the playoff, were occupied today by the western clubs, Milwaukee, St. Paul, Minneapolis and Kansas City, in that order. Indianapolis, in sixth place, trailing Columbus, the top eastern club, was one down in a five game series with Dutch Zwilling's organization.

The Indians did their hopes for a playoff no good last night by committing errors at critical moments to assist the Blues to a 2 to 1 victory in the series opener. Dale Alexander scored both Kansas City runs.

Milwaukee retained its two game margin over St. Paul in the leadership struggle by defeating Louisville 7 to 5 while the Saints were mauling Columbus 16 to 9. The Brewers bunched nine hits off Jack Tising and Yank Terry, doing most of their damage at the expense of the former.

The Saints, led by Steinbacher, who slugged out a home run, two doubles and a pair of singles in six times at bat, collected 22 hits good for 30 bases off Tony Freitas, Allyn Stout and Nel Potter. Bill McWilliams also contributed a homer to the Saint barrage. The Red Birds clipped Glenn Spencer and Ira Hutchinson for 15 hits, including Jack Winsett's 37th home run of the season and circuit clouts by Padgett and Morgan.

The Minneapolis-Toledo night game was called because of rain.

KENTON WANTS GAMES

The Kenton Merchants softball team is asking for home and home games with teams in and around Marion, according to a report today from Claude Henkle of Kenton. Team managers interested are asked to write Henkle.

ALL-STAR GAME TONIGHT TO BEGIN FINAL DRIVE

Teams in the All Star night softball league are battling in a wide open pennant race with but two rounds of the regular schedule remaining to be played. At the completion of 2 weeks competition, Axe Funeral Home's entry held the top position with a scant lead over the Marion Steam Shovel club. Gasco's nine is in third place followed by the Elks and K. of P. teams. Strange as it may seem, even the last place Moores & Ross aggregation still has an outside chance at the flag with [illegible] on [illegible] its last [illegible].

Moores & Ross will meet the Gasco [illegible] tonight at Lincoln park.

The Axe Funeral Home team will defend its first place .667 average after it clashes with the Elks entry Friday night. The Axe squad, under the direction of Manager Leo Keller, has won four of six games. Steve Marquis has piloted the M. S. S. outfit into second place with a .625 average, having won five of seven contests. The Diggers are matched for Wednesday's floodlight encounter with the K. of P. nine. The latter team has shown spasmodic flashes of ability but after walking far up the league ladder dropped to near the cellar in the standing.

Manager Carroll Davidson has directed the K. of P.'s efforts and still leads a team which must be reckoned with by the top notchers. On top of the heap early in the season, the Gasco entry had been among the leaders at the completion of each round of the schedule. Now holding third place with a record of four wins in seven games, the Gasco outfit could add much to its prestige should it win over the Moores & Ross team in tonight's game at Lincoln park.

Should Gasco win tonight it would give them a tie for second place with the M. S. S. team while a defeat would set them a step further away from the coveted flag. As followers of the night league anticipate, the last scheduled game of the season, Aug. 7, may decide the league championship. Axe Funeral Home will meet Gasco in the final battle, the outcome of which may swing the title one way or the other. All of the remaining Night league games are at Lincoln park under the flood lights and begin at 8:30 o'clock.

OLYMPIC TEAM HAS MORE WOE

Glenn Cunningham Suffers Soreness in Legs and Coach Can't Decide What To Do

By The Associated Press

BERLIN July 28—For the first time since the American Olympic team sailed nearly two weeks ago the coaches had some serious worries today other than those connected with the celebrated Jarrett case.

Glenn Cunningham the favorite to carry the American standard in the classic 1500 meter race was suffering from a soreness in his legs. Above all the Americans want to win the metric mile.

Cunningham and the coaches are worried about his legs. They can't decide whether more running or less is the proper prescription to get them into condition for the trials a week from Wednesday.

The Kansas flier said the soreness was caused by working out too energetically on the [illegible] Olympic village track soon after his arrival.

PLAN TO ORGANIZE RESOURCES COUNCIL

County Group To Be Formed To Cooperate in Nationwide Conservation Program

Preliminary plans for the organization of a Marion County Natural Resources council were made at a meeting held last night in the common pleas court room at the courthouse. O H Neimeyer state game protector for Marion county was in charge of the meeting and was selected as temporary chairman of the organization committee.

The meeting was held as the result of a national program inaugurated by the federal government to set up groups interested in conservation. The national program inaugurated by the federal government to set up groups interested in conservation. The national organization was formed last February at Washington D C and since that time regional and state organizations have been formed Mr Neimeyer said in explaining the conservation program.

It was planned at the meeting to hold an organization session August 10 at the courthouse. In the meantime persons who were present last night are to contact other groups and solicit their cooperation. A countywide invitation is extended to organizations interested in conservation of wild life and natural resources to have representatives at the next meeting. Individuals who share the interest in conservation are also invited to attend.

TWO BANK ROBBERS TO GET LIFE TERMS

Jury Fails To Recommend Mercy for Clevelanders Under New Law.

By The Associated Press

ELYRIA, O., July 28—Two 22-year-old Clevelanders, Anthony Papes and Edward Gromard, faced life terms in Ohio reformatory today after a jury of four men and eight women convicted them last night of the $5,789 robbery of the First Wellington bank at Wellington, O., on May 14.

The jury failed to recommend mercy. Prosecutor Howard R. Butler said under the new bank robbery law life imprisonment is mandatory. If leniency were recommended, the penalty would have been 20 years, he added.

Common Pleas Judge D. A. Cook said he would not pronounce sentences until he has ruled on a motion for a new trial which must be filed within three days.

Jury Foreman Joseph Gawn said the jury was unanimously for conviction from the start but that two of the members were for leniency for Papes, whose blond, 19-year-old wife, Ellen, was present throughout the trial.

Bureau Forecasts Cooler Weather

By The Associated Press

COLUMBUS, O., July 28—Relief from excessive heat came to Ohio today and the weather bureau forecast still cooler weather.

Thunderstorms late yesterday broke the grip of temperatures which climbed past the 100-degree mark in several places and lightning was blamed for the deaths of three persons.

Central and eastern Ohio got the major benefit of the rains. The weather bureau forecast showers for tonight and Wednesday in the south portion and for tonight in the north.

Meteorologist W. H. Alexander said here that cooler weather would follow the rains throughout the state.

Lightning struck a tree at the Glengarry Country club near Toledo late yesterday and killed Melvin Koralewski, 14, of Crissey, O., and injured Richard Wojcikowski, 15, of Toledo. They were caddies. Albert Edmundson, 10, was killed in a similar accident at Akron. Frank Bierce, 57, foreman on the Lakefront Boulevard WPA project in Cleveland, was killed while working and two other men were knocked down.

An unidentified moving van driver saved Mr. and Mrs. Carl Ranke and their two-year-old son Donald, when lightning struck their home, near Ashtabula setting it afire and stunning them.

He broke into their home and helped them to safety. Then he disappeared without leaving his name.

Many cities marked up record temperatures for July 27. Springfield and Columbus had 102. Gallipolis had 109, three degrees higher than the mark set during the last hot spell and a new top for the summer. Cincinnati had 101. Springfield and Cincinnati each had one heat death.

A heavy windstorm hit the Martins Ferry section on the Ohio river, felled trees and poles, but no one was hurt. Heavy rain and hail accompanied the storm.

Farmers in the "drouth triangle" west and southwest of Columbus could take little cheer from the rain, however. Farm experts said even more rain was needed if they were to salvage their pastures, while many crops already were beyond help.

WOMAN ON TRIAL IN BONUS SLAYING

By The Associated Press

CHILLICOTHE, O., July 28—A jury of one woman and 11 men, none of the men war veterans, settled down today to hear opening testimony in the first degree murder trial of Flossie Gullett Dixon, 25, charged with the "bonus slaying" of her husband, Hubert, 41.

Mrs. Dixon is accused of the killing during an argument on June 6 over disposition of his soldiers bonus money. The gun was accidentally fired while she and her husband wrestled for it, she told police during an investigation.

Ride With Death Solves Puzzle in Ohioan's Family

By The Associated Press

SPRINGFIELD, O., July 28—For two hours last Friday night Mrs. Harriet Miller of Springfield waited in a Cleveland hotel lobby for her sister, Mrs. Betty Green, 28, also of Springfield. They had agreed to meet and spend the week end with Mr. and Mrs. William Rizor of Willoughby, O.

Puzzled, Mrs. Miller went on alone. She had no word from either her sister or Leonard Banet, 43, of Detroit, who was to have driven Mrs. Green to Cleveland.

Late Sunday Mrs. Miller left Cleveland for Springfield by train still puzzled. When she arrived here, she was surprised to find her three brothers, Calvin and Charles Mitchell of here and J. P. Mitchell of Columbus at the station.

Her brothers were no less surprised. They had met the train, they said, to receive the body of Mrs. Green, killed at Cleveland Friday night while en route to keep the appointment. The body was on the same train.

HYPNOTIC BIRTH

Doctor Points to Success and Will Try Again.

By The Associated Press

COLUMBUS, O., July 28—Dr. A. H. Kanter, who attended the delivery of a 10-pound girl after hypnotizing the mother, said today he would try this method of relieving the pain of childbirth again soon.

While medical authorities withheld final judgment, Dr. Kanter said:

"I've got a few women who are about to become mothers and I'm going to do the same thing to them. Of course, we cannot do it to all women, for some are unwilling to be hypnotized."

Dr. Kanter said the use of hypnosis in child delivery had been practiced extensively in Russia but that he believed this was the first time in the United States.

TOWNSEND FIGURES IN OKLAHOMA VOTE

By The Associated Press

OKLAHOMA CITY, Okla., July 28—Effect of the Townsend vote on the hotly contested race between Gov. E. W. Marland and Rep. Josh Lee for the Democratic senatorial nomination was an important factor today as Oklahomans cast their votes in the run-off primary election.

Both Marland and Lee are strong supporters of the new deal.

Oklahoma Townsend leaders have indorsed Marland and Gomer Smith, national vice president of the old age pension organization, added his support Sunday. But Townsend club members meeting at Tulsa and Muskogee refused to follow.

Dr. Chevalier Jackson "Fishes for Pins" and Thus Thousands of Lives Are Saved

At 71 He's Recognized as Master Operator of Bronchoscope.

By HOWARD W. BLAKESLEE
Associated Press Science Editor

PHILADELPHIA, July 28—[illegible] Kelvin Arthur [illegible] traveled 8,00 miles from [illegible] to Philadelphia to have Dr. Chevalier Jackson remove a [illegible] from his lung with a [illegible] two readers wrote [illegible]

Why aren't there more than one [illegible] in the world to take [illegible] out of children?

The answer: There are thousands of bronchoscopes, straight hollow metal tubes with a light at the tip for looking down gullets, windpipes and lungs. There are nearly 2000 physicians trained personally by Dr. Jackson in use of the bronchoscope. And there's [illegible] Jackson.

Early To Bed, Early To Rise

Chevalier Jackson, M.D., age 71, who goes to bed at nine, rises at 4:30 A. M., who never drinks or smokes, who paints pictures and works with both hands.

Chevalier Jackson, the Old Master who developed the bronchoscope technique 31 years ago, who said he spent 22 years learning how to remove an open safety pin from child throats.

At three score years and ten the Old Master still is unbeatable.

That is why, with thousands of bronchoscopes—Siam and India have them along with the rest of the world—physicians keep sending swallowers of unusual objects to Chevalier Jackson's clinic at the Temple university hospital here.

Modest Master

Jackson wouldn't say he is the best—even though Temple university hospital has built him a special clinic and the hospital records last year showed he was visited by 5,273 out-patients who usually stayed less than a day, plus 1,718 patients who stayed longer.

Chevalier Jackson even writes the newspapers protests against mention of his cases. One of America's most famous and wealthiest men didn't get to Dr. Jackson's clinic because he asked a newspaperman to get him some information on it. The writer could not reveal his purpose. Dr. Jackson thought it must be publicity. He refused to see the newspaperman.

Careful Preparation Necessary

Dr. Jackson's work has the spectacular quality of near perfection in technique. A patient crossed the continent with an open safety pin in his throat. Two minutes after this patient went on the table the pin was closed and removed.

What the assembled medical men did not see was Chevalier Jackson spending much of his time the previous two days planning this operation. Long, slim forceps thrust down the hollow bronchoscope closed the pin.

The 22 years he practiced to learn this skill Dr. Jackson mentioned when he received the $10,000 Bok prize in 1927 for great accomplishment. At that time newspapers reported Jackson had "saved 1,800 persons" in 22 years.

Technique Spreads

The greater saving of life is the spread of Jackson's technique throughout the world. He did not originate the bronchoscope. That is credited to Dr. Gustav Killian, Freiburg, Germany, in 1895. But medical history records Chevalier Jackson as perfecter of the technique.

Its use has progressed far beyond removal of swallowed peanuts, toys, poker chips, safety razor blades, false teeth and plates, bullets, chicken bones, spray tips, staples, coins, jewelry—all recorded in Jackson's clinic.

These inadvertent swallowers are scarcely a third of the bronchoscope patients. Children who swallow lye or have diphtheria badly have their throats rebuilt. Cancer and nearly all the serious diseases of the upper respiratory tract can be seen and treated better with bronchoscope technique.

Paints With Both Hands

Dr. Jackson is ambidexterous because his father told him a left hand was a "lame duck." The boy trained both hands. He writes, draws, paints with both. He can draw a circle with one hand and, simultaneously, a straight line with the other. He has said he believes a man can do anything he wishes if he wants to hard enough.

He paints in colors what he sees while looking down the bronchoscope. His students watching him work are able to see what his eyes discern as the Master sketches with colored crayon.

Paintings Line Office

But on his office walls are other, different paintings. Many are scenes of woods, fields and streams. In a central place is a painting of his wife's sewing basket, with contents. Incidentally, he gave her the $10,000 Bok prize money to spend as she pleased.

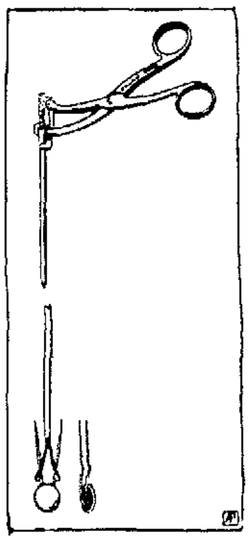
Dr. Jackson was born in Pittsburgh, Nov. 4, 1865. He says he got the idea of the bronchoscope technique partly from technique he developed as a young man for looking down oil wells thousands of feet deep for tools lost at the bottom. For what he has done with this idea he has been honored by England, France, Belgium, Italy, Brazil, Poland, Scotland, Mexico and in his own country.

Mortality Rate Slashed

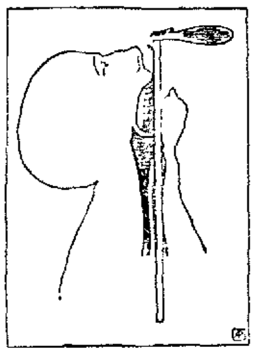
Lately William Edward Chamberlain, Temple university hospital physicist, invented a two-plane X-ray—X-ray eyes—to aid the bronchoscope. Chevalier Jackson, it appears, rolled a snowball that is turning into an avalanche.

Before he started taking objects from persons' gullets, it was popularly said 95 per cent of such patients died, because they had to have their chests opened. The mortality now is two per cent, and the medical profession at large has added much to bring that to pass.

At 71, Dr. Chevalier Jackson of Philadelphia, perfecter of bronchoscope technique, remains the world's acknowledged master of that delicate skill.



The bronchoscope is a slim brass tube through which forceps for removing foreign objects are inserted into the lungs or stomach. Here a pin is closed.



Originated by a German doctor 40 years ago, the bronchoscope makes an "inside job" of cases which formerly required an incision.

The doubting patrons, he said, came from near and far to see if he was right and added $20 to his average receipts for a double-feature day.

"Then they called me a damned liar," he added.

SPANISH AIR FLEET TO BOMBARD ENEMY

(Continued from Page One)

scribed the raids as an "important military action," said two guards were killed and 11 wounded in explosions which echoed throughout the mountainous region.

The leader of the raiders was Capt. Puig, who with four groups of scouts, invaded the Fascist lines to assault the ammunition supplies in a secret storehouse.

Several rebels were reported killed in the fighting, and the remainder of Fascist guards fled.

Dispatches from the rebel side of the lines in the mountain gateways to Madrid asserted 16,000 Fascist troops repulsed liberal forces defending Dobre Gordo in a bloody battle. The rebels occupied the town after hours of artillery barrage and close-quarter fighting.

Claim Enemy Stopped

Government claims said the insurgents' progress in the mountains had been stopped. Madrid, Barcelona, Toledo, Albacete, and Guadalajara were declared to be under complete leftists domination. Victory was predicted for loyal troops at Cordoba, Granada, Seville, Cadiz, Oviedo and Zaragoza where Fascist detachments were reported unable to withstand longer continued bombardment by government troops and planes.

Fascist soldiers who deserted into the leftist forces north of Madrid declared rebel troops were running short of food and described conditions in the insurgent camps as unbearable because of the stench of decomposing bodies.

Government troops were reported retreating from Malaga after suffering heavy losses at the hands of Fascist attackers.

More than 600 soldiers were estimated to have been killed in an engagement at Estepona and an additional 1,200 wounded.

A Fascist broadcast at Seville said 1,300 wives and children of Loyalist sailors were being held at Melilla, Spanish Morocco, "as hostages in case of a bombardment."

TWO CARS, TRUCK DAMAGED IN CRASH

Two automobiles and an Omar Baking Co. truck were slightly damaged about 10 a. m. today in a crash at Patten and State streets according to a report made to police.

William Mauller of 155 Short street, driver of one of the cars, was headed east on Patten street, police were told, while [illegible] Warner of 210 West Center street was driving north on State street. Glen Rose of 325 Milburn avenue was driving the bakery truck.

CHILDREN BLAMED FOR DELAWARE FIRE

Special to The Star

DELAWARE, O., July 28—Children playing with matches are believed to have started a fire which destroyed a corncrib and burned more than 15 acres on the Henry Evans and Lynn Rohrbaugh farms west of Delaware yesterday noon. Delaware firemen, state highway employes and volunteer firemen brought the fire under control. The fire started in the corncrib on the Evans farm and fanned by a west wind, the flames spread rapidly through a small orchard into a hayfield on the Rohrbaugh farm. Amount of damage was not estimated.

RELEASED ON BOND

Edward Freeman, 45, of 349 Olney avenue was arrested at 7:30 p. m. yesterday by police on a charge of disorderly conduct. The charge was filed by Harry Green of 347 Olney avenue. Freeman, municipal court said, was released on bond of $15.20 to appear in court Aug. 8.

CIGARETS STOLEN

A carton of cigarets was taken from a truck belonging to the Wright Transfer & Storage Co. yesterday about 8 a. m. when the driver, Clyde Parthemore of Jefferson street, stopped in an alley near Dugan's Clothing store to unload, according to a report to police.

ROME TO FOIL AIR ATTACKS

Rome is being made immune from air attacks according to members of the Unpa, the semi-independent organization being backed by the Italian government in its campaign of preparation, propaganda and instruction. Because of Rome's hills and the available refuge space, Unpa engineers and experts have decided that the best plan will be to prepare a large number of small shelters rather than many big ones. There are already a number of existing underground or semi-underground caves which could be used as bomb-proof shelters. [illegible] These include the tunnel under the Quirinal hill. Meanwhile the people are being encouraged to equip cellars as bomb-proof shelters. In every case the landlord is being made to pay the bill.

WPA WORKERS ASK FOR CITY PROJECTS

(Continued from Page One)

office today and arrange for the meeting with the finance committee of council and Chamber representatives.

Mr. Shane, secretary of the workers league, said he has talked with district WPA officials at Mansfield several days ago regarding the works program in Marion. He quoted one of them as saying there is enough government money allocated to Marion to put every employable person at work if the city will furnish the materials for the projects. The official declared, according to Mr. Shane, that if the city does not cooperate with the WPA the district office will recall the WPA engineer located here.

"I think it is high time we get back of this works program and do something," Mr. Shane said.

Mayor Makes Reply

The charge of lack of cooperation from city officials Mr. Shane quoted WPA district officials as making brought an answer today from Mayor F. C. Smith.

"In view of the facts we know to be true about this situation," the mayor said, "the charge that we have not cooperated is not only unwarranted but is wholly unfair."

He said city officials are preparing a statement and figures to give a complete picture of the WPA situation with regard to the city, which will be presented to the public and the WPA Workers' league within a few days.

Referring to specific projects on which he said the city had cooperated, Mayor Smith pointed to a proposed street widening project on South Prospect street, unfinished brick relaying projects and a proposed project to cut back 300 street curbs at intersections. The city approved and guaranteed materials funds for the Prospect street job, the mayor said, but because of a misunderstanding between city officials and WPA officials the project has been held up. He said the city is required to make an engineering survey of the job and that city officials did not understand this until recently.

The proposed project to cut back street curbs was approved and the money guaranteed sometime ago but city officials have had no word from WPA on it, the mayor said.

As for finishing brick relaying jobs on East Church street, Cherry street and Park boulevard, the city is preparing to go ahead with this work in the near future, he added.

"Anything we can possibly do to aid the WPA in getting projects underway will be done," the mayor declared.

Pathologist Proposal Loses

The ordinance calling for a monthly report from the city pathologist was placed before council by Councilman Basil Williams. It would require "a detailed report of all services rendered together with an itemized statement of all monies collected as fees from private persons." Seventy per cent of the pathologist's private fees are allowed him for his services and 30 per cent goes to the city.

Councilman Williams, speaking for the proposed ordinance, said council should at least have its fingers on the pathology job enough to know what he is doing." He pointed out that reports are made to council of the work being done in other city departments.

Those who voted against the ordinance were Councilmen D. R. Biggert, Robert H. Stief, Harry D. Cahill and Hayse Rogers. Supporting it were Basil Williams, W. M. Fabian, Clarence Hart, Welcome P. Cass Jr. and William A. Shuster. A two-thirds vote would have been required for passage.

Oil Co. Request Received

A petition of the Ohio Power Oil Co. of Columbus, for permission to lay a gasoline pipe line under West Center street near the Pennsylvania railroad tracks was referred to the street and alley committee. The company plans to erect a service station in that locality and pipe its gasoline under the street to the station directly from a tank car on the railroad siding.

An ordinance calling for removal of a 200-foot strip of land north of Center street between Campbell and Leader streets from the city fire zone was given one reading. The ordinance creating the zone requires that buildings erected within the zone be of fireproof material and meet certain specifications.

A bill presented by Robert Cass of North Greenwood street, for $18.50 for damage to his automobile allegedly caused by a heat explosion on Greenwood street was referred to the street and alley committee.

Council also made a supplemental appropriation of $1,125 for the salary of Dr. Martin M. Weinbaum, city physician in charge of relief medical work, for the remainder of the year. Dr. Weinbaum had previously been paid $450. Other appropriations of $100 for legal advertising and $50 for municipal court jury and witness fees were made.

Little comment greeted the reading of Chief Marks' letter. It was referred to the police committee for study. Councilman Rogers commented that "it is a serious situation."

Chief Marks' letter addressed to city council through the safety director under date of July 16 follows:

Text of Marks' Letter

Everyone is more or less familiar with the inadequate personnel of the police department. Since the reduction of men in April, council made provisions to employ three men financed by the Chamber of Commerce and businesses of Marion. These men are not inclined to continue at the former rate of pay and are of the opinion they should be provided for at the same rate of pay as other members of the department. The agreement with business men having expired, the force will now consist of eight men. I wish some information as to how certain requirements are to be met. I have seven men and myself, one will be on vacation continually until about Sept. 4. That will leave four men nights and three on days during this period. Except each day or night when as the case may be one is on his day off. This means that three days a week there will be one on the desk and records and one to answer calls. Nights there will be four nights a week when there will be one on the desk and only two to answer calls.

It is unpractical to answer many of the calls with one man and sometimes suicidal. With fights and brawls and more than one way of escape one officer is always in jeopardy of his own safety. He must look out for himself and the result may be that participants may (if they resist or run) be seriously injured or shot. This is a point that I wish to have made clear. To take care of such instances I wish definite written authority to govern such cases. An officer must not back down and must take such steps to preserve his own person. These cases come unexpectedly and before they do happen we wish to know what action to take and avoid such criticism as is bound to happen or follow.

My duties as chief are plentiful in ways of executive and record but I am always willing to aid the other officers in the execution of their duties as and when I am available. Now if something is missed, overlooked or incomplete so as to involve me in the future, I wish an expression in writing as to what I can expect in such instances.

Next in line of duties assigned me and the department is the sanitary work. I wish to know which I should do and not be criticized either way should the unexpected happen. To take care of the safety of the public, preserve the peace and protect property and be available to do this at all times as best we can or go inspecting toilets, rubbish or weed complaints, while some things happen seriously while thus engaged. I wish written instructions to govern this situation. I might add that the sanitary conditions this year are terrible over large sections of the city.

Another example of a serious condition came to attention on the night of July 14 at the serious fire at the Masonic temple. I am supposed to be present at such times. Two men were working the streets, both were busy at the fire and there was no way to contact me other than for one of them to leave the fire to call me or hire a taxi to get me. I have brought the telephone situation up at various times, before the first of the year and since also incorporated it in my annual report.

Before any men were laid off our department was the smallest in the United States with reference to numbers for a city of this size. I am not begging off in any respect for myself or members of the department but we are not able to meet all the requirements that befall us.

In an instance as follows I am anxious to know the solution. A call, the one man with the car answers, arrives and finds one or two drunks. How can he drive the car with safety and bring them to the station? Another thing, there is space set aside by ordinance on Orchard street to facilitate police parking and handling our stock in trade (autos and prisoners) but it is often that this place used by city officials and it is necessary to park as far away as Church street or on Garden street. We don't want to be piggish but on either side of the driveway near our rear entrance we should have at all times room for three cars and the drive kept open.

Very truly yours,
(Signed) William E. Marks

HOLC LOANS IN COUNTY REPORTED AT $1,656,60

Made on 752 Properties, Hancock County Next Highest District With 263.

The number and amount of loans made by the Home Owners Loan Corp. in Marion and other counties in the Eighth congressional district during the period of its operation is shown in a communication just received by Congressman Brooks Fletcher. The report is from John W. Cou[illegible] assistant to the chairman of the HOLC board.

The statistics show that 752 loans totaling $1,656,607, were closed in Marion county by the time the HOLC ceased operations June 12.

The number and amounts of the loans in other counties in the district follow: Crawford, 205 for $446,159; Hardin, 55 for $117,370; Morrow, 41 for $78,324; [illegible] 56 for $89,484, and Han[illegible] for $573,747.

A total of 98,557 loans amounting to $306,583,793, were closed [illegible] Ohio, the Congress report shows.

The HOLC organization is now devoting its time to servicing the loans, which are amortized at four and one-half per cent interest over a 15-year period. Small monthly payments made by the borrowers include interest and a portion of the principal. P. [illegible] Dwyer, local real estate broker, is handling the properties here.

Of the 752 Marion loans foreclosure suits have been brought in common pleas court against [illegible] borrowers. Virtually all of these, attorneys for the corporation explain, are against those who do not wish to retain their property or who find it impossible to carry out the terms of their contract.

Tuberculosis

From time to time I have told my readers about the various measures used to guard against tuberculosis Among these are such factors as fresh air sunshine nourishing food and adequate hours of rest

Today I want to tell you something about the surgical treatment of tuberculosis This procedure is of relatively recent origin Yet it is based on a recognized principle of treatment Its purpose is to give rest to the lung to give it a chance to heal

Of course it is difficult to provide rest for the lung which moves when we breathe in air or expel it In simple cases of tuberculosis bed rest is sufficient to bring about beneficial and even curative effect But in advanced cases with cavity formation in the lung additional measures are necessary

In 1882 Forlanini an Italian physician first suggested pumping air into the chest as a means of squeezing the cavity shut and promoting its healing This came to him when he observed the good results accidentally obtained in a patient who developed water in the lungs

Many years passed before further steps were taken to perfect a treatment founded on this idea Many problems had to be solved before the plan was universally accepted Today surgical collapse of the lung is accepted by all authorities as a means of dealing successfully with certain forms of tuberculosis

Of course this method is not advised for all cases The indications for its use are clear and definite It is of greatest value in the treatment of extensive lung tuberculosis with hemorrhage Whether to employ it or not is decided after x-ray of the lungs and prolonged observation of the patient

In more difficult cases the collapse is brought about by removing parts of the ribs This operation takes longer and requires more skill but is beneficial in suitable cases It is most encouraging to learn of the many advances made in dealing with a disease which at one time was considered incurable

The Governor's Wife

The [illegible] an [illegible] House to [illegible] part of the [illegible]

Slowly [illegible] getting acquainted [illegible] seen her on [illegible] night she helped [illegible] of Kansas thank his neighbors who congratulated him on being [illegible] nominee and last Thursday night when he made his acceptance speech

Mrs Landon has made it plain she is not interested in being conspicuous Unavoidably she will be forced to become more conspicuous than she would like to be She will enlist attention however and that is why so many of her countrymen are genuinely pleased to meet her

"Money Is No Object"

Mrs Violet Van der Elst England's one woman crusade against capital punishment will come to America in September for a whirlwind campaign with money no object. To date she admits she has spent $120,000 a year on her English crusade half for the cost of campaigning and half for losses on her anti-capital punishment magazine

This wealthy widow is a determined woman Frequently she has demonstrated outside British prisons where hangings have been scheduled So far her efforts have netted nothing except a $15 fine for refusing to stop her car when ordered to do so by the police But she is coming to America with a corps of assistants and already thinking of engaging Madison Square Garden for a meeting

Even persons sympathetic to Mrs Van der Elst's cause might admit that emotional demonstrations never will persuade the world that capital punishment is one of civilization's worst evils Yet there is the kernel of truth in what the campaigner said in her latest interview Murderers are insane she declared We should send them to a hospital for 15 or 20 years not kill them

Unfortunately most murderers are not insane even though many defending attorneys in this country seek to create that impression Yet it cannot be denied that most murderers—most criminals in fact—are emotionally unstable persons whose motivations should be understood as well as condemned That criminologists and psychiatrists increasingly are thinking of crime in terms of remedial rather than punitive terms is a hopeful sign The time has not been reached when society can hospitalize all its criminals but the day is approaching when crime prevention through understanding will decimate the annual toll exacted from society by anti social outcasts

Progression

Step No 1 the Kentucky legislature enacted a sales tax placing a penny impost on five cent purchases

Step No 2 the sale of many low priced articles such as candy has slumped calamitously

Step No 3 with his sales practically at a standstill a chewing gum manufacturer has decided to discontinue all forms of advertising in the state

Conclusion the legitimate advertising business and the legitimate candy business in Kentucky to mention only two types of concerns affected have been struck severe blows by the legislative itch to tax The state may have needed additional revenue [illegible] taxes may have been justified but a [illegible] per cent levy points to the handwriting on the wall

Possibly [illegible] the advertising [illegible] chewing gum [illegible] Kentucky will not [illegible] The nation will not [illegible] collapse [illegible] chew [illegible] healthy gum [illegible] the impasse [illegible] there is a warning The governmental bolt [illegible] stretches out its arms to embrace the whole nation needs the [illegible] of revenue The people will be the victims of the blood transfusion act [illegible] some of them might [illegible] on advertising appropriation for chewing gum. They might for instance vote against the spendthrifts

Col Charles A Lindbergh high on the list of American heroes is known as a quiet personable man Since his epochal Atlantic flight, the public has grown accustomed to his devoting most of his time to the development of aviation His experiments with the glass heart have shown his scientific bent. [illegible]

The Spoken Word

It [illegible] had [illegible] Landon's [illegible] fortunate [illegible] fortunate in [illegible] to the trouble of [illegible] the discussion over the governor's speaking ability

Apparently [illegible] heard him were confirmed in their impression that he is a poor orator He does not compare favorably with President Roosevelt either on the platform or in front of the microphone For some reason or other this is supposed to prove that Mr Roosevelt is going to defeat him next November

It's time to refer to a little history Abraham Lincoln was a notoriously poor speaker Stephen Douglas a famously good speaker Ulysses Grant couldn't orate for sour apples but he got away with it Calvin Coolidge had all the bad habits of New England speech and none of the good ones. Mr Coolidge made quite a mark for himself

By all odds one of the worst public speakers of current times is Herbert Hoover Yet in 1928 Mr Hoover matched vowels and consonants with a really effective if somewhat unorthodox orator and managed to sweep the country Alfred E Smith was beaten by something more than oratory

Gov Landon may be defeated but not because he is a poor speaker It would be because his ideas (they look better in print than they sound over the radio incidentally) did not appeal to enough voters A glib tongue a good voice a colorful vocabulary and radio appeal are important but any actor has them Elections still are paid off on confidence

Declaration Needed on Labor Issue

F[illegible] Interpretation of Platform Clause by Landon Regarded as Essential in Quest for Independent Votes

By DAVID LAWRENCE

Copyright 1936 by The Marion Star

[illegible]

[illegible] The Republican [illegible] coercion from a source The [illegible] phrase was first used [illegible] President Roosevelt in signing the automobile [illegible] 1934 [illegible] a bit puzzling to see [illegible] committee charging the [illegible] authorship of the phrase to the National Association of Manufacturers

* * *

But regardless of origin the meaning of that phrase is important and labor wants to know more from Governor Landon as to how he interprets it The Republican nominee in his speech of acceptance [illegible] thought that no coercion from any [illegible] whatsoever meant to him no [illegible] from any employers or from [illegible] employes or from any other source

Promptly union labor spokesmen declared that this interpretation could mean that an outside organizer who was not employed in a plant or industry will be restrained from ordinary membership work done in the process of getting workers organized into unions If Governor Landon did not mean such a thing he [illegible] an opportunity in future speeches to clarify what he did mean

The crux of the labor controversy is that there are two kinds of working men's organizations in America irrespective of whether the unit is the plant or the craft or the industry The two kinds are those that are not in any way influenced by employers and those that may or may not be under employer influence but which are independent of national unions confining their activities to the plants or factories where the men are employed

Mr Landon says frankly that workers should have the right to belong to any type of union they choose This is broad democracy But when he says they should be able to choose their representatives without coercion from any source the question arises as to when coercion is mere persuasion unwelcome to minority factions and when it is intimidation and simple violence

* * *

The national labor relations act provides a penalty only for coercion practiced by employers against employes who wish to join a union There is no provision which protects the workingman against the strong arm tactics of some union organizers Senator Wagner author of the labor relations act and new dealers generally pooh pooh such fears saying it is a myth invented by employers yet every strike and every labor dispute reveals details that workingmen who refuse to join a union are subjected to humiliation and threats that amount to coercion in repeated instances To the outcry that some protection of the law must be given the answer usually made is that state law and city ordinances already take care of it

In all probability the national labor relations act because it is arbitrary and one sided will be declared unconstitutional But this will not dispose of the question of collective bargaining Governor Landon is today not merely the spokesman of the party in a national sense but he speaks as a general thing for state tickets Hence what he says about the maintenance of the rights of collective bargaining affects the labor vote all along the line

Labor is entitled to a clear cut declaration from the Republican nominee which assures labor a right to organize a right to use organizers whether or not they are employes of a given plant provided the organizers [illegible] Likewise employers are entitled to freedom of action [illegible] to talk frankly to their employes about disadvantages as they see it of plant or craft or industrial type unions This is freedom of speech as essential in economic democracy as in political democracy. The usual comment made on this by some labor spokesmen is that unionization is none of the employers business to getting of course that when labor organizations get into the hands of unscrupulous leaders and unnecessary strikes are called it becomes very much the business of the employer for he is responsible not only for the payrolls but for the safety of the savings of those who have invested in his management [illegible] to meet the [illegible] buyer as to ultimate price [illegible] and could [illegible] price he [illegible] he would not worry much about [illegible] organization

Mr Landon's views on labor [illegible]

Behind the News

Men and Affairs Under The Washington Spotlight

By CARTER FIELD

WASHINGTON [illegible] The ghost of Huey Long [illegible] marching on in Louisiana [illegible] in the canebrakes the people [illegible] shipped and [illegible] him without question when he was alive believe he is looking down on them from heaven [illegible] that he is still their leader and that he wants to re[illegible] them

So strong is this illusion and so common this belief that the old Long lieutenants tried to aid it a little when the present governor Richard W Leche was inaugurated They had a mammoth picture of the Kingfish which they tilted to create the impression he was looking down at his people

Now the Long lieutenants are just a little sorry they helped foster this legend It is working against them For the one thing they cannot get out of the minds of the run of the mine Long followers is that Huey hated and despised Franklin D Roosevelt with a consuming hatred

So out in the country side the Long followers for the first time since the Civil war are talking about voting the Republican ticket They know that Long was going to run himself against Roosevelt and therefore they figure that Long watching them from heaven would want them to vote for anyone who might have a chance to throw the head of the new deal out of the White House

Usually in Line

Which might not be so important were it not for some other things For Louisiana is pretty fairly moored to her Democracy She did not even waver in 1928 when so many southern states including her neighbor Texas went Republican

But to this group of honest and sincere followers of Long—not the lads who made their living by following him and who have now turned to Roosevelt with enthusiasm to reap the perquisites of federal patronage—must be added the folks who not only hated Long but were oppressed by him These people not so numerous as the Long worshippers are still bitter against Long but their bitterness carries over to his lieutenants who are now in power

Until Long's death Roosevelt and James A Farley played to these Long haters They encouraged them in every way they could Roosevelt himself sent for Cleveland Dear urging him to get in the race for governor He sent word to John N Sandlin another anti Long leader that he wanted Sandlin to run for senator They made the fight and lost but they think that entitles them to a little gratitude from the White House

But with the death of Long Roosevelt and Farley at once made peace with his lieutenants who climbed aboard the administration bandwagon Indictments against many of them for tax evasion—on the Al Capone system for punishing a man for one thing by convicting him of another—were dropped And the old Long lieutenants are getting the gravy

Signs of Break

So the element represented by Sandlin and Dear of whom there are a great many though they were never strong enough to defeat Long is plenty sore with Roosevelt Many of them are talking of voting for Alfred M Landon Many more will probably do so without talking—so as to keep their records straight publicly

On top of these two groups are the sugar interests Louisiana they feel has been very badly treated by the administration It has been given a sugar quota of only 220,000 tons though they expect a crop of 400,000 tons They feel that their rights have been traded away in the reciprocal treaties in the interests of producers of other commodities in other sections

Even the rice people are sore They wanted a stipulation in the Cuban treaty that Cuba should take two million pockets—bags of about 100 pounds each—of rice each year in exchange for tariff concession They got nothing

Adding this all up Louisiana folks here insist they would not be astounded if the 10 electoral votes of Louisiana should be found in the Landon column

This is not a prediction It merely sets forth that all is not milk and honey in the Democratic campaign

Paul Mallon whose daily column usually appears here is on vacation and during his absence communications from other writers will be substituted Mr Mallon's column is scheduled to start again on Aug 7

TIMBER IN TIFFIN'S DAY

Under the administration of Gov Edwin Tiffin the first governor of Ohio the legislature enacted a law that was intended to protect the owners of extensive timber lands which were not fenced or guarded

Trees were cheap in those days and they were valued variously The most valuable tree yet growing in the state the black walnut was looked upon as the most valuable then But it is so rare now that the timber is practically out of the market in this state

The legislature provided a fine of $50 for any one who started a fire on the land of another or set one on his own land from which fire spread to the lands of another

Int as—J B S—on the sea in front of her carved by a skeptical youth who had no confidence in footprints on the sands of time A red velour curtain concealing the big stage warm glowing red tha had in it a quality of reassurence

The Sanhedrin seated at a long table facing the assembly She tried to identify the superintendent in the group and then gave it up all the men looked benign and pedagogical

That left the faculty itself The rows of seats curved and her pla e on the aisle afforded an excellent view of her associates There were about a hundred of them she esti mated of varying ages and shape The men were off to themselves in a protective huddle outnumbered a dozen to one by the women She selected the football coach without difficulty a blonde giant with long prehensile hands and anthropoid features but the other men we e more nondescript

The women she decided fell roughly into two classes the Young And Bored who were teach ing as Pat had suggested until they could get married and the Intent And Earnest who were fo ever destined to be brides of edu cation Many of them wore ob viously new clothes dark felt hat and fall print dresses or even u s although September in Georgia was breathelessly dustily hot Those she decided would belong to the out of town contingent.

The drone of voices faded and died and she looked at the Sanhe drin The man who was on his feet beaming at them must be Mr Hudson the superintendent

He reminded her of a sheep-dog becau e he was big and shaggy and because his hair and his clothe were rough gray tweed He spoke and his voice boomed heartily ove the silent room

Le s all rise Mr Hudson was saying in a coaxing tone and sing the fi st second and last stanza of America after which we will r main standing while Brother Alfo d of the First Methodist church lead us in prayer

Carol glanced sidewise in aston ishment was this a faculty meet ing Nobody else seemed surpri ed so she scrambled to her feet. Which were the firs second and la t stan za of America, anyhow?

One of the women teachers had taken her place a the piano and was flicking he pages of One Hundred and One Best Songs She played emphatically accenting every chord and her face was so close o the page tha she seemed to be reading he no es by smell

The song wa ered up a d and hen s ren hened as the timider ones waded in

She stopped short for a second evidently visualizing her home

My upstairs sitting room is the best place although really a y where would do for there isnt anybody in the house but the girl —I have somebody to help me now —Robert made me promise before he died that I always would have help in the house and that Ed ward would have someone out doors

Her face was suddenly tender and sorrowful at the memory of her idolized brother for whom she had cared so devotedly during the many years of his clouded men tality

Darling Robert she said Sometimes I cannot believe that he is gone but I would not wish him back His life would have been a long crucifixion without Lillian but I understand fully why she could not marry him Tell me is she happy?

HOW ARE THINGS—SARAH? AND HOW ARE THE TWINS?
THEY'RE FINE— AND I'M VERY THRILLED!
I WAS IN THE BUTCHER SHOP THIS MORNING AND MRS. O'GORMAN WAS TELLING MRS. BURKE HOW BEAUTIFUL THE TWINS ARE!
WHAT'S ODD ABOUT THAT? I'M THEIR FATHER!
IS THAT SO? AND MRS. BURKE SAID IT WAS FORTUNATE THAT THEY RESEMBLED THEIR MOTHER!
SOMEHOW, SARAH—I NEVER DID LIKE THAT WOMAN!

Daily Pattern for Home Use

BY ANNE ADAMS

JUNIOR FROCK GIVES ITS WEARER SERVICE THE YEAR 'ROUND

Now's the time, before school starts, to make the young miss a supply of fresh new frocks for Fall, and she'll wear this one (Pattern 4077) right through the entire term. Did you ever see anything snappier than that smart center panel, terminating in two roomy pleats? And what more perky than a notched collar, puffed sleeves and girlish sash? Note also, the longer sleeve length—good to incorporate in a Winter version of [illegible] broadcloth, washable challis, [illegible] wool crepe or wool-appearing cotton, and we'll wager you [illegible] up more than one frock from the same, easy-to-cut patern.

Pattern 1077 is available in sizes 4, 6, 8, 10 and 12. Size 10 takes [illegible] yards 36-inch fabric. Illustrated step-by-step sewing instructions included.

Send fifteen cents (15)c in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly name, address and style number.

Be Sure to State Size

Be sure to order your copy of our Anne Adams Pattern Book! See all the cool, lovely clothes you [illegible] for summer fun—pictured in [illegible] simple models that are even [illegible] to make! Perky house dresses and [illegible] outfits. Fetching frocks for [illegible]. The latest slenderizing [illegible] for stouts. Practical models for children. Book fifteen cents. Pattern fifteen cents. Twenty-five cents for both when ordered together.

Address orders to The Marion Star, Pattern Department, 243 W. 17th St., New York, N. Y.

OLIVE, YA REALLY WANT TO GIVE ME THE JEEP?
I SAID SO— HE LIED TO ME AND I DON'T WANT HIM!
WELL, BLOW ME DOWN! THERE'S THAT JUNE BUG AGAIN—AN' THE JEEP IS WATCHIN' HIM
IT LIT ON THE TABLE RIGHT IN FRONT OF EUGENE
MY GOSH! WHAT'S HE SIGNALING "YES" FOR? OH, I GET IT—HE JUS' BENT DOWN TO LOOK AT THE BUG
HMM—MAYBE THEY WAS A JUNE BUG ON THE TABLE WHEN THEY AST HIM IF I'D LOSE THE FIGHT.
I'LL BET HE WASN'T PAYIN' NO ATTENTION TO THE QUESTION—JUS' BENT DOWN TO WATCH THE BUG AN' WE THOUGHT HE MEANT "YES"

STOCKS ABSORB PROFIT TAKING

Realizing Prompted by Long Upturn but Good News Causes Bullishness

By The Associated Press

NEW YORK, July 28.—The lengthy and almost uninterrupted recovery invited profit taking in today's stock market.

At the same time selling was quiet and many issues continued to push ahead, some to new high territory for the past several years. The rails near the fourth hour were on the upgrade.

There was little in the news to discourage buying forces, earnings and dividends being highly favorable in the majority.

Deere was a strong point with a gain of about 3 points. Others steady to ahead included Great Northern, Delaware & Hudson, New York Central, Santa Fe, Southern Pacific, Northern Pacific, Libby Owens, Kelvinator, Johns Manville, Westvaco Chlorine, General Electric, Allied Chemical, Kennecott, American Water Works, U. S. Steel, Bethlehem, Midland Steel Products, Spiegel May Stern, Allied Stores, Douglas Aircraft, United Aircraft, American Telephone and Western Union.

In the lower division were General Motors, Chrysler, Montgomery Ward, Sears Roebuck, Consolidated Edison, North American, Electric Power & Light, Anaconda, Westinghouse, Goodyear, Electric Auto Lite and Safeway Stores. A new year's low was established by U. S. Smelting with the loss of around 3 points.

Bonds were rather steady and commodities mixed. Foreign currencies did little in terms of the dollar.

A sustaining influence for merchandising issues was seen in estimates of August retail sales which some executives believe will exceed the same 1935 month by about 15 per cent and may make the best comparative showing for the year to date.

The French franc at the beginning of foreign exchange transactions was off 00¼ of a cent at 6.61 cents and sterling was unchanged at $5.01.

European Political and Crop Conditions Provide Bullish Sentiment

By The Associated Press

CHICAGO, July 28.—New record breaking Liverpool high prices for the season gave the Chicago wheat market a strong upward trend today. The action of Liverpool was regarded as at least in part due to uneasiness over European political conditions as well as to adverse crop prospects both sides of the Atlantic.

Opening at ⅝@1⅛ cents rise, September 105½@106⅛, December 106⅝@107⅛, wheat then held near to this range. Corn started unchanged to 1⅛ higher, September 90@91, December 84¼@84½ and for the time being altered little.

'Trouble-Shooter' McGrady Shuns Speech Invitations as Trouble Brews on Coast

By The Associated Press

WASHINGTON, July 28.—Reports that trouble was brewing in the maritime labor situation made the labor department officials stay ready to prepare to intervene at the first break.

Edward F. McGrady, assistant secretary and the administration's labor trouble shooter, declined all invitations to [illegible] labor day speeches [illegible] he will be [illegible] at that time.

The [illegible] kept in close touch [illegible] the principal parties on both coasts and west coasts.

Wage and hour agreements between Pacific coast shipowners and longshoremen and the employers expire Sept 30. Negotiations toward new ones are stated to start 50 days before the old pacts expire.

These negotiations probably will be completed [illegible] feel is the war between [illegible] officials and young [illegible]

CLEVELAND OFFICE ROBBED OF $6,000

By The Associated Press

CLEVELAND, O., July 28.—Three youthful robbers held up nine employes of the Prudential Life Insurance Co.'s west side branch office today and escaped with loot estimated at $6,000 by Frank T Ferris manager.

The trio one of whom brandished a large calibre revolver terrorized seven girl employes and two men for 15 minutes Ferris told police.

ADMITS SHOPLIFTING

G W Miller of Henry street was arrested by police yesterday afternoon at the S S Kresge Co store at 144 West Center street and charged with petit larceny. After entering a plea of not guilty at his arraignment in municipal court he later changed the plea to guilty and was fined $10 and costs. It was alleged that he shoplifted two pairs of hose and four spools of thread at the S S Kresge store police said.

Wool Market

By The Associated Press

BOSTON, July 28.—Graded domestic wools in Boston were mostly quiet and quotations largely nominal.

Buyers were making inquiries but they were taking few wools. A little staple ½ blood territory wool was moved at a price on the low side of the range 84@87 cents scoured basis. Very little interest was shown in graded medium territory wools but some bids were made on medium fleeces at levels below the prices acceptable to dealers. Buyers were taking a little fine territory wool in original bags at prices about steady compared with last week.
